

## SYLLABUS

<b>Année d'étude et parcours</b>	<b>L3 Sciences économiques et Licence <i>International economics</i></b>
<b>Intitulé du cours</b>	<b>Economic topics 2 : European Economic integration</b>
<b>Numéro de l'UE</b>	<b>UE 3.2 (Licence International economics) ; UE 1.4 (L3 Stratégie)</b>
<b>Volume horaire (en heures maquettes)</b>	17h30
<b>Objectifs et compétences développées</b>	The purpose of this course is to understand the economic integration process in Europe, from the creation of a Free Trade Area to the creation of the European Monetary Union. The course provides analytical as well as empirical tools to address this process and the associated issues.
<b>Contenu et moyens pédagogiques</b>	<p>Chapter 1 - Introduction : Economic integration and the European Union</p> <p>Chapter 2 : Economic Governance : European institutions and the European Budget</p> <p>Chapter 3 : The European Customs Union and the Common commercial policy</p> <p>Chapter 4: The Single Market</p> <p>Chapter 5: Monetary integration in Europe</p> <p>At the end of this course, students should be familiar with the main stages of the European economic integration process and the issues that each of them has brought about. Students should also be able to address the main economic implications of the integration process as well as the benefits and costs it has entailed for the Member states and the European Union as a whole. They should be familiar with the main indicators used to measure the different aspects of the integration process (mainly trade and financial integration).</p>
<b>Pré-requis</b>	L2 : Undergraduate courses in Microeconomics ; Macroeconomics ; Monetary Economics
<b>Modalités d'évaluation</b>	Written exam (1.5 h)
