

### SYLLABUS DE COURS

<b>Année d'étude - parcours</b>	<b>M1 Intelligence Economique MAGEVAL 2</b>
<b>Intitulé du cours</b>	<b>Regulation and Competition Policies</b>
<b>Numéro de l'UE</b>	UE 2.3 (M1 IE)/ UE 2.8 (MAGEVAL 2)
<b>Volume horaire (en heures maquettes)</b>	18 heures
<b>Objectifs et compétences développées</b>	The aim of the course (in English) is to enable students to understand the institutional and legal framework designed to regulate markets. The course is based on industrial economics concepts and goes into greater depth on the economic foundations of competition policy. At the end of the course, students should be able to read and understand advanced articles on market discipline, and formulate economic arguments to explain concrete cases of state intervention to discipline anti-competitive behavior. They should also be familiar with the main indicators used to measure market power and assess industrial concentration.
<b>Contenu et moyens pédagogiques</b>	After a historical overview of the regulatory and institutional framework for market discipline in various countries, a number of specific topics are presented, such as the prohibition of cartels, abuse of dominant position, collusive agreements under conditions, mergers and regulated monopolies, emphasizing in each case theoretical foundations and empirical evidence. Teaching materials is available on Moodle. Each week, one specific topic is tackled and students will have to actively read and comment special readings. A pair of students will be in charge of giving an oral presentation of the reading; another pair of students will be in charge of presenting a case study in relation with the topic under discussion.
<b>Pré-requis</b>	Basics of microeconomics and game theory. Basics of econometrics.
<b>Modalités d'évaluation</b>	Two test sessions (mid-term, final term) are organized taking the form of a written exam with 4 or 5 questions related to the topics covered in class, duration: 90 minutes.
